3. **MEDICAL RECORD KEEPING COURSE.** Within 60 calendar days of the effective date of this Decision, Respondent shall enroll in a course in medical record keeping approved in

Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board
or its designee, be accepted towards the fulfillment of this condition if the course would have
been approved by the Board or its designee had the course been taken after the effective date of
this Decision.

Respondent shall submit a certification of successful completion to the Board or its
designee not later than 15 calendar days after successfully completing the course, or not later than
15 calendar days after the effective date of the Decision, whichever is later.

designee deems relevant. The program shall evaluate Respondent at the end of the training and
the program shall provide any data from the assessment and training as well as the results of the
evaluation to the Board or its designee.

Failure to complete the entire program not later than six (6) months after Respondent’s
initial enrollment shall constitute a violation of probation unless the Board or its designee agrees
in writing to a later time for completion. Based on Respondent’s performance in and evaluations
from the assessment, education, and training, the program shall advise the Board or its designee
of its recommendation(s) for additional education, training, psychotherapy and other measures

A professional boundaries course taken after the acts that gave rise to the charges in the Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board or its designee, be accepted towards the fulfillment of this condition if the course would have been approved by the Board or its designee had the course been taken after the effective date of this Decision.

7. **PSYCHOTHERAPY.** Within 60 calendar days of the effective date of this Decision, Respondent shall submit to the Board or its designee for prior approval the name and qualifications of a California-licensed board certified psychiatrist or a licensed psychologist who has a doctoral degree in psychology and at least five years of postgraduate experience in the diagnosis and treatment of emotional and mental disorders. Upon approval, Respondent shall undergo and continue psychotherapy treatment, including any modifications to the frequency of psychotherapy, until the Board or its designee deems that no further psychotherapy is necessary.

The psychotherapist shall consider any information provided by the Board or its designee and any other information the psychotherapist deems relevant and shall furnish a written evaluation report to the Board or its designee. Respondent shall cooperate in providing the psychotherapist with any information and documents that the psychotherapist may deem pertinent.
Respondent shall have the treating psychotherapist submit quarterly status reports to the Board or its designee. The Board or its designee may require Respondent to undergo psychiatric evaluations by a Board-appointed board certified psychiatrist. If, prior to the completion of probation, Respondent is found to be mentally unfit to resume the practice of medicine without restrictions, the Board shall retain continuing jurisdiction over Respondent’s license and the period of probation shall be extended until the Board determines that Respondent is mentally fit to resume the practice of medicine without restrictions.

Respondent shall pay the cost of all psychotherapy and psychiatric evaluations.

8. **SOLO PRACTICE PROHIBITION.** Respondent is prohibited from engaging in the solo practice of medicine. Prohibited solo practice includes, but is not limited to, a practice where: 1) Respondent merely shares office space with another physician but is not affiliated for purposes of providing patient care, or 2) Respondent is the sole physician practitioner at that location.

If Respondent fails to establish a practice with another physician or secure employment in an appropriate practice setting within 60 calendar days of the effective date of this Decision, Respondent shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. The Respondent shall not resume practice until an appropriate practice setting is established.

If, during the course of the probation, the Respondent’s practice setting changes and the Respondent is no longer practicing in a setting in compliance with this Decision, the Respondent shall notify the Board or its designee within five (5) calendar days of the practice setting change. If Respondent fails to establish a practice with another physician or secure employment in an appropriate practice setting within 60 calendar days of the practice setting change, Respondent shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. The Respondent shall not resume practice until an appropriate practice setting is established.

9. **THIRD PARTY CHAPERONE.** During probation, Respondent shall have a third party chaperone present while consulting, examining or treating female patients. Respondent
shall, within 30 calendar days of the effective date of the Decision, submit to the Board or its
designee for prior approval name(s) of persons who will act as the third party chaperone.

If Respondent fails to obtain approval of a third party chaperone within 60 calendar days of
the effective date of this Decision, Respondent shall receive a notification from the Board or its
designee to cease the practice of medicine within three (3) calendar days after being so notified.
Respondent shall cease the practice of medicine until a chaperone is approved to provide
monitoring responsibility.

Each third party chaperone shall sign (in ink or electronically) and date each patient
medical record at the time the chaperone’s services are provided. Each third party chaperone
shall read the Decision and the Accusation, and fully understand the role of the third party
chaperone.

Respondent shall maintain a log of all patients seen for whom a third party chaperone is
required. The log shall contain the: 1) patient initials, address and telephone number; 2) medical
record number; and 3) date of service. Respondent shall keep this log in a separate file or ledger,
in chronological order, shall make the log available for immediate inspection and copying on the
premises at all times during business hours by the Board or its designee, and shall retain the log
for the entire term of probation.

Respondent is prohibited from terminating employment of a Board-approved third party
chaperone solely because that person provided information as required to the Board or its
designee.

If the third party chaperone resigns or is no longer available, Respondent shall, within five
(5) calendar days of such resignation or unavailability, submit to the Board or its designee, for
prior approval, the name of the person(s) who will act as the third party chaperone. If Respondent
fails to obtain approval of a replacement chaperone within 30 calendar days of the resignation or
unavailability of the chaperone, Respondent shall receive a notification from the Board or its
designee to cease the practice of medicine within three (3) calendar days after being so notified.
Respondent shall cease the practice of medicine until a replacement chaperone is approved and
assumes monitoring responsibility.
Respondent shall provide written notification to Respondent’s female patients that a third party chaperone shall be present during all consultations, examination, or treatment with female patients. Respondent shall maintain in the patient’s file a copy of the written notification, shall make the notification available for immediate inspection and copying on the premises at all times during business hours by the Board or its designee, and shall retain the notification for the entire term of probation. This particular notice requirement shall not apply so long as Respondent is working for The Permanente Medical Group.

10. **NOTIFICATION.** Within seven (7) days of the effective date of this Decision, Respondent shall provide a true copy of this Decision and Accusation to the Chief of Staff or the Chief Executive Officer at every hospital where privileges or membership are extended to Respondent, at any other facility where Respondent engages in the practice of medicine, including all physician and locum tenens registries or other similar agencies, and to the Chief Executive Officer at every insurance carrier which extends malpractice insurance coverage to Respondent. This condition shall apply to any change(s) in hospitals, other facilities or insurance carrier.

11. **SUPERVISION OF PHYSICIAN ASSISTANTS AND ADVANCED PRACTICE NURSES.** During probation, Respondent is prohibited from supervising physician assistants and advanced practice nurses.

12. **OBEY ALL LAWS.** Respondent shall obey all federal, state and local laws, all rules governing the practice of medicine in California and remain in full compliance with any court ordered criminal probation, payments, and other orders.

13. **QUARTERLY DECLARATIONS.** Respondent shall submit quarterly declarations under penalty of perjury on forms provided by the Board, stating whether there has been compliance with all the conditions of probation.

///
14. GENERAL PROBATION REQUIREMENTS.

Compliance with Probation Unit

Respondent shall comply with the Board’s probation unit.

Address Changes

Respondent shall, at all times, keep the Board informed of Respondent’s business and residence addresses, email address (if available), and telephone number. Changes of such addresses shall be immediately communicated in writing to the Board or its designee. Under no circumstances shall a post office box serve as an address of record, except as allowed by Business and Professions Code section 2021(b).

Place of Practice

Respondent shall not engage in the practice of medicine in Respondent’s or patient’s place of residence, unless the patient resides in a skilled nursing facility or other similar licensed facility.

License Renewal

Respondent shall maintain a current and renewed California physician’s and surgeon’s license.

Travel or Residence Outside California

Respondent shall immediately inform the Board or its designee, in writing, of travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty (30) calendar days.

In the event Respondent should leave the State of California to reside or to practice, Respondent shall notify the Board or its designee in writing 30 calendar days prior to the dates of departure and return.

15. INTERVIEW WITH THE BOARD OR ITS DESIGNEE. Respondent shall be available in person upon request for interviews either at Respondent’s place of business or at the probation unit office, with or without prior notice throughout the term of probation.

16. NON-PRACTICE WHILE ON PROBATION. Respondent shall notify the Board or its designee in writing within 15 calendar days of any periods of non-practice lasting more than
30 calendar days and within 15 calendar days of Respondent’s return to practice. Non-practice is defined as any period of time Respondent is not practicing medicine as defined in Business and Professions Code sections 2051 and 2052 for at least 40 hours in a calendar month in direct patient care, clinical activity or teaching, or other activity as approved by the Board. If Respondent resides in California and is considered to be in non-practice, Respondent shall comply with all terms and conditions of probation. All time spent in an intensive training program which has been approved by the Board or its designee shall not be considered non-practice and does not relieve Respondent from complying with all the terms and conditions of probation. Practicing medicine in another state of the United States or Federal jurisdiction while on probation with the medical licensing authority of that state or jurisdiction shall not be considered non-practice. A Board-ordered suspension of practice shall not be considered as a period of non-practice.

In the event Respondent’s period of non-practice while on probation exceeds 18 calendar months, Respondent shall successfully complete the Federation of State Medical Boards’ Special Purpose Examination, or, at the Board’s discretion, a clinical competence assessment program that meets the criteria of Condition 18 of the current version of the Board’s “Manual of Model Disciplinary Orders and Disciplinary Guidelines” prior to resuming the practice of medicine. Respondent’s period of non-practice while on probation shall not exceed two (2) years. Periods of non-practice will not apply to the reduction of the probationary term. Periods of non-practice for a Respondent residing outside of California will relieve Respondent of the responsibility to comply with the probationary terms and conditions with the exception of this condition and the following terms and conditions of probation: Obey All Laws; General Probation Requirements; Quarterly Declarations; Abstain from the Use of Alcohol and/or Controlled Substances; and Biological Fluid Testing.

17. **COMPLETION OF PROBATION.** Respondent shall comply with all financial obligations (e.g., restitution, probation costs) not later than 120 calendar days prior to the completion of probation. Upon successful completion of probation, Respondent’s certificate shall be fully restored.
18. **VIOLATION OF PROBATION.** Failure to fully comply with any term or condition of probation is a violation of probation. If Respondent violates probation in any respect, the Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against Respondent during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

19. **LICENSE SURRENDER.** Following the effective date of this Decision, if Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy the terms and conditions of probation, Respondent may request to surrender his or her license. The Board reserves the right to evaluate Respondent’s request and to exercise its discretion in determining whether or not to grant the request, or to take any other action deemed appropriate and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent shall within 15 calendar days deliver Respondent’s wallet and wall certificate to the Board or its designee and Respondent shall no longer practice medicine. Respondent will no longer be subject to the terms and conditions of probation. If Respondent re-applies for a medical license, the application shall be treated as a petition for reinstatement of a revoked certificate.

20. **PROBATION MONITORING COSTS.** Respondent shall pay the costs associated with probation monitoring each and every year of probation, as designated by the Board, which may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of California and delivered to the Board or its designee no later than January 31 of each calendar year.

JURISDICTION

3. This Accusation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.

"This section shall not apply to sexual contact between a physician and surgeon and his or her spouse or person in an equivalent domestic relationship when that physician and surgeon provides medical treatment, other than psychotherapeutic treatment, to his or her spouse or person in an equivalent domestic relationship."

FIRST CAUSE FOR DISCIPLINE
(Unprofessional Conduct: Gross Negligence/Repeated Negligent Acts)

9. Respondent’s certificate to practice medicine is subject to disciplinary action for unprofessional conduct under section 2234, subdivision (b) and/or section 2234, subdivision (c), of the Code in that respondent was grossly negligent and/or he engaged in repeated negligent acts in his care and treatment of Patient VY. The circumstances are as follows:
10. On or about December 18, 2013, Patient VY, a 20-year-old woman, e-mailed her OB/GYN physician, Dr. B., regarding a two week history of nausea, fatigue, body aches, swelling of the feet and ankles, headaches, sharp pelvic and lower abdominal pain, breast tenderness and mood swings. She was worried she was pregnant, though she reported taking two home pregnancy tests that were both negative. Dr. B reassured VY that because she could feel her IUD strings and had negative pregnancy tests, she was not pregnant. Dr. B advised VY that her symptoms could be due to a viral syndrome, dehydration, or stress. Dr. B recommended VY drink fluids, take Tylenol, and contact Respondent if the symptoms persisted.

11. On December 23, 2013, Patient VY appeared at Respondent’s office at Kaiser in Santa Clara, CA for a scheduled appointment regarding a complaint of low back pain. VY was placed in an examination room where a medical assistant took her vital signs. Respondent then entered the room and asked VY why she was there. VY reported she had back pain. Respondent told her she needed to undress, gave her a gown, and left the room.

12. VY removed her clothing above the waist, leaving on her bra, and put on the gown with the opening in the back. When Respondent returned to the examination room, he told VY that she needed to also remove her boots and pants. Respondent sat at a computer in the room, with his back to VY, while VY removed her boots and pants. VY kept on her underwear.

13. VY reported having low back pain for several days. She denied injury initiated the pain. She reported the pain was localized to her thoracic and lumbar spine, radiating down to bilateral buttocks. She denied having numbness, tingling, and weakness. VY reported taking ibuprofen and heat/ice without improvement. VY reported that she is required to do some lifting at work and requested a note for time off from work. The documented history on this date notes VY’s recent e-mail communication with her OB/GYN doctor.

14. While VY was standing, Respondent examined her back from the shoulders down and had her bend over to see how far she could bend. Respondent asked if he could undo her bra and VY said yes. Respondent unfastened VY’s bra and continued to examine her back. Respondent

1 The patient’s identity is kept confidential to protect her privacy but will be revealed to Respondent in discovery.
then asked VY to lie on the exam table on her back. He examined her abdomen and sides, asking if she hurt anywhere.

15. During straight leg raise and piriformis examination, Respondent noted vaginal bleeding on VY’s underwear. VY reported that she was using a folded napkin because she had run out of hygiene products. Respondent had VY roll onto her stomach. He had her extend her back and felt around her back and buttock, asking where it hurt.

16. Respondent asked VY about her intrauterine device (IUD) and whether she had any problems with it. VY reported that she did not have any problems. Respondent asked if she could feel the IUD string and VY said that she could. Respondent then removed VY’s underwear and asked if he could check. VY said okay. The napkin VY had in her underwear fell onto the examination table. Respondent picked up the napkin with his bare hand and tossed it into the trash. Respondent gave VY a tampon and a pad.

17. Respondent washed his hands and put some lubricant on his fingers. He did not put on a glove. Respondent inserted multiple fingers into VY’s vagina and felt around, commenting on the length of the IUD string. Respondent asked VY if her boyfriend could feel the string and she said yes. Respondent suggested the next time VY saw her OB/GYN she could ask to have the string cut so her boyfriend would not feel it. With his fingers still in VY’s vagina, Respondent asked VY if she liked foreplay and if she liked anal and oral sex. Respondent asked VY whether she and her boyfriend engaged in oral sex. With his fingers still in VY’s vagina, Respondent leaned over so that his face was near her vagina and asked, “can I?” VY said no. Respondent then removed his fingers from her vagina and wiped them on her gown. Respondent continued touching VY’s vaginal area and looking at her as though seeking a reaction.

18. Respondent then gave VY a booklet on back exercises and left the room. While VY was still reviewing the booklet while seated on the examination table, Respondent returned to the room. He then began feeling her left leg, ran his hand up her leg and underneath the gown, felt her breast and rubbed her nipple. Respondent commented about loving to touch her like that while she was reading. VY asked Respondent if she needed to call someone or speak with his manager. Respondent said no and quickly pulled his hand away. Respondent was apologetic and
told VY that she was giving him “mixed signals.” VY denied Respondent’s allegation about mixed signals and told Respondent that he needed to leave. Respondent left the room and VY got dressed.

19. VY left the examination room and got back into the registration line to report Respondent’s misconduct. An office employee, HL, saw that VY appeared upset and asked her what was wrong. VY began to cry and HL took VY back into the examination room area. VY told HL that respondent sexually assaulted her. HL then took VY into an examination room where they talked. HL then left the room and closed the door. Shortly after, Respondent entered the room and closed the door. VY told him to leave. Respondent began to speak, but VY grabbed her things and left the room. As she walked out, Respondent attempted to stop her. When she exited the room, VY was stopped by HL. VY reported that respondent had entered the room. HL placed VY in another examination room.

20. The police were called. VY and respondent were separately interviewed by officers of the Santa Clara Police Department.

21. Respondent prepared his progress note of VY’s visit the following day, December 24, 2013, after he had been interviewed by the police. Physical examination was notable for the absence of pain with mild sternal pressure, normal abdominal examination, and normal brief neurological examination of the lower extremities. Spine examination revealed limited spine extension to zero degrees, pain with motion, tenderness of the lumbar paraspinal muscles, negative straight leg raises, and negative piriformis pain. Respondent’s assessment was low back pain. Respondent noted that VY denied vaginal discharge and that she would follow up with her gynecologist for bleeding or IUD concerns; that VY declined recommended physical therapy; that VY was taught back lordosis exercises; and, that heat/ice and NSAIDs were recommended. Respondent provided VY with a modified work restriction for one week. Respondent did not document a genital or breast examination.

22. At the time of his interview with officers of the Santa Clara Police Department on December 23, 2013, Respondent reported that during the examination of VY, he took with his bare hand the paper product that VY had been using as a sanitary pad and threw it away. At his
interview with the Medical Board on June 2, 2015, respondent denied that he ever touched the paper product. Respondent reported at both his interview with the Santa Clara Police Department and with the Medical Board that during the examination of VY he became concerned about the possibility of gynecological pathology, including pelvic inflammatory disease, as the cause of VY’s vaginal bleeding and/or her back pain. Respondent failed to document any such concerns in the patient record.

23. Thus, Respondent is guilty of gross negligence and/or repeated negligent acts in his care and treatment of Patient VY, including but not limited to the following acts and/or omissions:

A. Respondent remained in the examination room while Patient VY removed her pants and boots in preparation for examination.

B. Respondent unfastened VY’s brassier and/or he removed her underwear during the examination.

C. Respondent took a sexual and/or gynecological history from VY during the course of physical examination.

D. Respondent took a sexual and/or gynecological history from VY with his fingers in her vagina.

E. Respondent failed to provide a sheet and/or to cover VY’s pelvic area during straight leg raise testing.

F. Respondent touched VY’s genital area and/or penetrated her vagina with his fingers without wearing examination gloves.

G. Respondent touched the paper product VY used as a sanitary pad with an ungloved hand.

H. Respondent asked VY if he could perform a sexual act on her.

I. Respondent made sexually inappropriate remarks and/or he inquired into VY’s sexual practices.

J. Respondent penetrated VY’s vagina with his fingers and/or he fondled her leg and/or he fondled her breast.
K. Respondent told VY that she was giving him "mixed signals" to explain his sexual misconduct.

L. Respondent failed to immediately bring a female chaperone into the examination room if he believed the patient was sending him mixed signals.

M. Respondent performed and documented compression of VY's sternum in the absence of any complaint of chest pain and/or Respondent failed to document an indication for compression of the sternum.

N. Respondent failed to take a history and document last menstrual period and frequency and volume of vaginal bleeding.

O. Respondent failed to document a sexual history.

P. Respondent failed to include in his assessment any discussion of the possibility of serious gynecological pathology, including pelvic inflammatory disease, or how it was excluded.
